To

The Firms dealing in Bare Copper Wire.

Enquiry No. 10430 E.D. 1159.

Subject :—Hard Drawn Bare Copper Wire.

Gentlemen,

No. S.P.C. 1050-80. Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the attached Schedhle in the form printed below.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellations of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Hard Drawn Bare Copper Wire" with the above enquiry number.

This enquiry will be closed on 2nd May 1951.

SCHEDULE.

	F.O.R., Bangalore.
No. 6 B. & S. Hard Drawn Bare Copper Wire solid copper wire drawn from best electrolytic copper rods and manufactured in accordance with the standards laid down in B.E.S.A. Specification, 125-1940—Diameter 162"	Fifty Tons

Specification for Conductors, Circular, Copper, Hard Drawn, Solid and Stranded, for Overhead Power Transmission Line Purposes.

The supply offered against this enquiry shall conform in all respects to the latest B.E.S.A. or A.I.E.E. standards as they may be amended from time to time.

2. The suppliers will be required to test the conductors to be supplied as specified in the standard specification referred to above and furnish a test certificate signed by a responsible officer of the Company along with the invoices.

3. The Stores Purchase Committee reserve the right to depute an officer to select such samples as may be necessary and see pieces cut from them for tests or may request such samples as he may require for test to be sent to him, and insist on the test being carried out at the contractor's works or premises or elsewhere as may be most convenient to the Inspecting Officer. However, no

harge is to be made for the samples used for testing nor or any test carried out at the contractor's works or premises.

TEST SAMPLES.

4. Samples may be cut from the ends of every piece for he machanical tests. Not more than five per cent of the iest samples of one diameter is to be cut from any part ɔther than the ends for mechanical tests. Pieces thus ;ut shall not be brazed or otherwise joined together but iach length shall be bound up into a separate coil. These ɔieces will be accepted if the wires satisfy the requirements -of this specification.

5. Any piece may be tested for its electrical resistance and not less than two per cent of the total number of ɔeils shall be so tested.

REJECTIONS.

6. If after examination of any particular quantity of wire, five per cent of such wire does not meet the require--nents of all or any of the foregoing clauses, the whole of such quantity shall be rejected and no such quantity or any part thereof shall, on any account be, presented again or examination and testing.

7. Tenderers shall fill in the Appendix attached and eturn the same with their tenders. It is to be under-tood that the tenders received without this information on he due date will not be considered.

PACKING.

8. All conductors shall be carefully packed in such a manner that they will not be affected by climatic condi-ions or damaged due to handling in transit.

9. All conductors having a diameter exceeding 0·258 nch shall be supplied tightly coiled on wood drums bsolutely without kinks. The drums shall be substantially :onstructed so that the conductor may be run out smoothly -or stringing purposes.

10. Each drum shall have marked on it indelibly a description of the contents, length, nett and gross weights, erial number, date of manufacture, name of manufacturer nd such other information as may be required.

11. Conductors having a diameter of less than 0.258 nch may be supplied on drums or in burlapped coils; if upplied in coils, each coil shall have securely attached to t a stout and durable label giving the description of ontents, length, nett weight, serial number, date of manufacture, name of manufacturer and such other -nformation as may be required.

12. The contractor shall supply in triplicate weight heet showing the serial numbers of the drums or coils and he respective nett weights of the conductors.
